It has been said that ones journey from head to heart may be the longest and most challenging you will ever endure.

Once arrived, the journey of the heart is one that will open you to your vulnerabilities and your beauty, while equally illuminating the magic that exists in this world.

A true journey of ones heart will open you up to manifesting possibilities that you never knew to be possible. A true relationship with one's heart will allow for authenticity in relating to yourself, a beloved, parents, children, family and friends.

The journey of the heart involves a lifelong commitment to yourself and your tribe. It will foster connection beyond imagination.

A true journey of the heart will support one in his/her endeavours - a change in relationships; parenting; career; personal healthcare, deepening spiritual practice and supporting the growth of the people around you.

Menergy 2018 will be a 'Journey of the Heart'

Men, do yourself a favour and get amongst this epic weekend!

A contemporary, community-based Rite of Passage for boys into Manhood which takes the form of a 5 day bush camp for boys aged 13-15 years and their fathers or a male mentor. This award-winning program has been running since 1995 and the difference this experience makes in the lives of the boys, their fathers and the entire family is profound.

As we all know, a boy's body changes dramatically as he goes through puberty. Physically his body will become that of a man but it is still possible to be a "boy" as we see in our culture, in a man's body.

"A boy cannot turn into a man without the active intervention of older men." – Robert Bly.

Independent research concludes that outcomes for attendees include, stronger communication skills and social confidence, Stronger more respectful and supportive father relationships, Increased respect for women, more motivated to set goals: Improved attitude towards finishing school, stronger desire to give back to their communities:

Fathers see their sons as less angry and anxious and more motivated and confidence:
Mothers see their sons as more kind and as leaders. They also appear more confident and happy with where their lives are heading – more content with their situation.
